

Proposed Microsoft settlement

12/10/01

Dear Judge J. Frederick Motz,

To get right to the point, I believe any settlement, where Microsoft is providing any type of support to schools as part of the settlement, is the worst possible thing that could happen. It is CLEAR that monopolizing students minds, via the Windows operating system or any of its proprietary software would be WRONG. Brainwashing is the first word that comes to mind when I think of students learning all about this software. I hope you will give this your consideration.

Thank you,

Rick Eckhart
